**Clinical Nurse II**

08/15 – 02/20

St. Joseph's Hospital (Baycare) – ER  
Tampa, FL

- Provide direct patient care for three or more patients in the adult ER of a Level II trauma center.
- Deliver consistently professional care in a high acuity ER that works with a range of patient conditions including stroke, cardiac arrest, trauma, STEMI, COPD, asthma and CHF by prioritizing, delegating and caring for a steady stream of patients.
- Work collaboratively with physicians as part of a multi-disciplinary team to evaluate patients and develop plans of action that consistently provided the best possible patient outcomes.
- Evaluate, diagnose and treat patients with acute trauma, chest pain, shortness of breath, and stroke symptoms; additionally, completed all medical charts in an accurate and timely manner using Cerner power chart.

**Registered Nurse**

08/12 – 05/15

Sacred Heart Hospital on the Emerald Coast – ER  
Miramar Beach, FL

- Provided direct patient care in an autonomous fast-paced 18-bed, mixed Pediatric and Adult Emergency Department in the Destin-Miramar beach area.
- Worked to ensure ER with high patient volume ran smoothly by organizing patient care, working collaboratively with physicians to communicate and properly diagnosis and treat all patients.
- Professionally cared for patients while alternating between different nursing roles including triage, charge nurse and clinical nurse duties.
- Counseled and educated patients regarding health risk factors, disease processes, wound care and promoting a healthy lifestyle.

**Registered Nurse**

09/10 – 03/12

Community Hospital of the Monterey Peninsula - ICU & ER  
Monterey, CA

- Provided care for critically ill medical and surgical patients for the largest healthcare system on the Monterey peninsula including a single 20-bed ICU and Emergency Department.
- Scope of practice included a variety of specialties and skills as a clinical nurse including septic pneumonia, cardiac emergencies, code 3 trauma resuscitation, open-heart surgery and bariatric surgery.

**Clinical Nurse II**

10/05 – 04/10

UNC Healthcare – Surgery/Trauma ICU-Surgical Step-down  
Chapel Hill, NC

- Worked in the 800+ bed interdisciplinary university hospital including the surgical step-down unit and level I Surgery/Trauma ICU.
- Treated surgical patients with a wide variety of specialties in a fast-moving unit where patients were highly complex and had the probability of becoming hemodynamically unstable.
- Provided direct patient care for critical trauma, liver/kidney/pancreas transplants, neurosurgery, septic shock, ARDS, multi-system organ failure, vascular abnormalities, radical neck surgery, and a variety of other subset specialties.
- Worked to obtain in-depth histories, perform quality physical exams, order and interpret tests and develop plans-of-care, which included pharmacologic and non-pharmacologic interventions.
